Accessibility Plan 2024 -2027

Buckden Primary School is a welcoming village church school and delightful happy environment, where all children strive to do their best. We want all children to enjoy school, to be challenged to achieve their verybest, and to consider their time at the school their own 'learning adventure'. We are committed to giving all of our children every opportunity to achieve the highest of standards. We do this by taking account of pupils' varied life experiences and needs. We offer a broad and balanced curriculum and high expectationsfor all children. The achievements, attitudes and well-being of all children matter.

Purpose of Plan

This plan shows how Buckden Primary School intends over time to increase accessibility of our school fordisabled pupils, staff, parents and carers and visitors.

Definition of disability

A person has a disability is he/she has a physical or mental impairment that has a substantial and long-term adverse effect on his/her ability to carry out normal day-to-day activities.

Areas of planning responsibilities

- Increasing access for disabled pupils to the school curriculum (this includes teaching and learningand the wider curriculum of the school, such as participation in after school clubs, leisure and cultural activities or school visits)
- Improving access to the physical environment of schools (this includes improvements to thephysical environment of the school and physical aids to access education)
- Improving the delivery of written information to disabled pupils (this will include planning to make written information that is normally provided by the school to its pupils available to disabled pupils.The information should take account of pupils' disabilities and pupils' and parents' preferred formats and to made available in a reasonable time frame

Contextual Information

Buckden Primary School has been in its current location since 1871. The original Victorian single storey building houses BOSS, our out of school club, this has a slopped entrance to the main clubroom. There have been multiple extensions over the years all at ground floor level. The new entrance has a graduatslope and is accessible for wheelchairs. One of the hall exits has had a slope added for emergency exit forwheel chairs and the other is accessible for wheelchairs.

There are a set of two steps from the year 3 cloakroom, but a further flat exit is available further down the corridor or through a classroom in an emergency. The school has a disabled toilet in the KS1 area of school.

There is a disabled parking space on the road directly outside the new entrance.

At present we have no wheelchair dependent pupils or staff but we do have a parent.

Current Range of known disabilities

The school has children with a range of disabilities to include moderate and specific learning disabilities.

Increasing access for disabled pupils to the school curriculum.

Improving teaching and learning lies at the heart of Buckden CE School's vision. Through self-review and Continuous Professional Development (CPD), we aim to enhance staff knowledge, skills and understanding to promote excellent teaching and learning for all children. We aim to meet every child's need within mixed ability, inclusive classes.

It is a core value of the school that all children are enabled to participate fully in the broader life of the school. Consequently, all children have always been permitted to attend age relevant after school clubs, leisure activities and educational visits. The only exception would occur if a child breached school rules when deprivation of club attendance may be used as a suitable short term sanction and to ensure the safety of others.

BOSS (Buckden out of School Scheme) strives to make the facility accessible to all children and will seek additional funding from the appropriate agency if one to one care is needed for any child to attend.

Improving the delivery of written information to disabled pupils

This will include planning to make written information that is normally provided by the school to its pupils available to disabled pupils. Examples might include handouts, textbooks, and information about school events. The information should take account of pupils' disabilities and parents' preferred formats and made available in a reasonable time.

In planning written information available to disabled pupils we again need to establish the current level of need and to be able to respond to any changes in the range of need. The school will identify agencies and sources of such materials to be able to make provision when required. The school's ICT infrastructure will enable us to access a range of materials supportive to need.
