Hundreds, Tens and Ones

1) Look at the two representations below.

a) What is the same?

b) What is different?

c) Explain what these differences tell us about the two numbers that are represented by the base ten equipment.

2) a) Think about the numbers 42 and 36. Which has the greater value?

b) Use base ten equipment to prove this.

3) I have 7 tens, 2 hundreds and 9 ones. I do not have to use all of my equipment but must place at least one of each in every place value column.

a) What is the greatest number I can make? Explain your reasoning.

b) What is the smallest number I can make? Explain why.
